Income Tax Expense	\$ 3.3	\$ 1.1	\$ 2.3	211%
Net Income	\$ 12.9	\$ 4.2	\$ 8.7	204%
Net Income per Diluted Share	\$ 0.94	\$ 0.31	\$ 0.63	203%

Management Commentary

“Fiber-fed broadband is being recognized as the answer for future-proofed connectivity to the American home and business,” said Clearfield President and CEO Cheri Beranek. “Our record-setting financial performance for the third quarter and first nine months of fiscal 2021 reflects Clearfield’s unique positioning in the market and our ability to capitalize on the robust growth vectors. The continued demand for high-speed broadband drove a 49% year-over-year increase in net sales to a record \$38.7 million, bringing our total net sales for the first nine months of the year to a record \$95.5 million, which was up 45% year-over-year.

“The labor-saving practices that are instrumental to Clearfield’s product architecture are being recognized by service providers throughout the broadband marketplace. Order bookings, which accelerated at the end of the second quarter, continued their momentum in the third quarter, resulting in a 377% year-over-year increase in backlog to \$40.3 million. We continue to build additional capacity to respond to the demand and expect to ship the majority of our backlog in our current quarter ending September 30, 2021. In addition, due to the unprecedented lead times and challenges in the global supply chain, we are working with our customers to place longer lead-time purchase orders to ensure availability of components and materials from our supply chain. Based on current supply chain dynamics, lead times have stretched to 8 to 10 weeks for certain product categories. Over the next several quarters, we will be working to normalize lead times to more historic levels of 4 to 6 weeks from receipt of purchase order.

“Our customers, no matter if they are local exchange carriers, over-builders, cable providers, rural electrical utilities or new to this market, recognize that fiber is the *only* technology to provide symmetrical up-stream and down-stream performance. Currently, there are multiple

government funded programs that are accelerating broadband deployment, such as the Rural Digital Opportunity Fund (RDOF), which will start to be deployed later this summer and fall. In addition, the proposed bi-partisan infrastructure framework looks promising toward enhancing the funding available to future-proof broadband deployment.

“Looking ahead, we believe all our broadband markets remain ripe for sustained growth. The market presence we have established over the last 10 years, along with our recent strategic investments, will enable us to respond to market demand and grow with our customers. While the supply chain remains volatile and may pose challenges in the future, our strong financial performance and \$40.3 million backlog, give us confidence to increase our net sales guidance for fiscal 2021 to \$130 million to \$135 million, which represents year-over-year growth of more than 40%. We anticipate our selling, general and administrative costs will also grow moderately, as increased travel resumes, and we add additional customer-facing positions. We anticipate net income as a percentage of total net sales to be consistent with year-to-date levels.

“Over the last three years, we have been building upon a strategic plan that began as our ‘Coming of Age’ plan and then became our ‘Comes of Age’ plan this past year. Moving forward, we are now underway with our ‘Now of Age’ plan in which we offer the maturity and capacity to scale to this expanding marketplace. The multi-year plan is designed to capture the fiber to the home and business market share Clearfield was built to obtain, while delivering the innovation for new and existing markets in the years ahead. While very early, we believe with current demand, new government initiatives and overall market strength our, current market forecasts will translate to projected annual net sales of \$150 million to \$160 million in fiscal year 2022, representing growth of 15% to 20% over projected fiscal year 2021 revenues.”

Third Quarter of Fiscal 2021 Financial Results

Net sales for the third quarter of fiscal 2021 increased 49% to \$38.7 million from \$26.0 million in the same year-ago quarter. The increase in net sales was primarily due to higher sales in the Company’s Community Broadband, International and Multiple System Operators (MSO or Cable TV) markets, partially offset by decreases in the Company’s Legacy and National Carrier markets.

Gross profit for the third quarter of fiscal 2021 increased 59% to \$17.1 million (or 44.2% of net sales), from \$10.8 million (or 41.5% of net sales) in the same year-ago quarter. The increase in gross profit margin was due to a favorable product mix associated with higher net sales in the Company’s Community Broadband markets and cost reduction efforts across the Company’s product lines, including increased production at its Mexico plants as well as manufacturing efficiencies realized with increased sales volumes.

Operating expenses for the third quarter of fiscal 2021 totaled \$9.4 million (or 24.4% of net sales), which compares to \$7.2 million (or 27.8% of net sales) in the same year-ago quarter. The increase in operating expenses consisted primarily of higher compensation costs related to performance compensation accruals.

Income from operations for the third quarter of fiscal 2021 increased 115% to \$7.7 million from \$3.6 million in the same year-ago quarter.

Income tax expense for the third quarter of fiscal 2021 increased 126% to \$1.7 million, or an effective tax rate of 22.1%, from \$763,000, or an effective tax rate of 20.3%, in the same year-ago quarter due to higher taxable income.

Net income for the third quarter of fiscal 2021 totaled \$6.1 million, or \$0.44 per diluted share, a 104% improvement from \$3.0 million, or \$0.22 per diluted share, in the same year-ago quarter.

Cash and cash equivalents and short and long-term investments totaled \$58.9 million at June 30, 2021, compared to \$52.2 million as of September 30, 2020.

Financial Results for the Nine Months Ended June 30, 2021

Net sales increased 45% to \$95.5 million for the nine months ended June 30, 2021 from \$65.8 million during the same period in fiscal 2020. The increase in net sales was primarily due to higher sales in the Company’s Community Broadband, International and MSO markets, partially offset by decreases in the Company’s Legacy and National Carrier markets.

Gross profit was \$41.4 million (or 43.4% of net sales) for the nine months ended June 30, 2021, an increase of 55% from \$26.7 million (or 40.6% of net sales) in the same period in fiscal 2020. The increase in gross profit dollars was due to increased sales volume. The increase in gross profit margin was due to cost reduction efforts across the Company’s product lines, including greater use of its Mexico manufacturing facilities as well as manufacturing efficiencies realized with increased sales volumes.

Operating expenses increased 16% to \$25.6 million (or 26.8% of net sales) for the nine months ended June 30, 2021, from \$22.0 million (or 33.4% of net sales) during the same period in fiscal 2020. The increase in operating expenses was primarily due to increases in compensation costs and performance compensation accruals.

Income from operations totaled \$15.9 million for the nine months ended June 30, 2021, compared to \$4.7 million during the same period in fiscal 2020.

Income tax expense was \$3.3 million, with an effective tax rate of 20.6%, for the nine months ended June 30, 2021, as compared to \$1.1 million, with an effective tax rate of 20.2% during the same period in fiscal 2020.

Net income totaled \$12.9 million, or \$0.94 per diluted share, for the nine months ended June 30, 2021, an increase of 204% from \$4.2 million, or \$0.31 per diluted share, during the same period in fiscal 2020.

Conference Call

Clearfield management will hold a conference call today (Thursday, July 22, 2021) at 5:00 p.m. Eastern Time (4:00 p.m. Central Time) to discuss these results and provide an update on business conditions.

Clearfield President and CEO Cheri Beranek and CFO Dan Herzog will host the presentation, followed by a question-and-answer period.

U.S. dial-in: 1-877-407-0792
International dial-in: 1-201-689-8263
Conference ID: 13721495

The conference call will be webcast live and available for replay here: <http://public.viavid.com/index.php?id=145687>

Please call the conference telephone number 10 minutes prior to the start time. An operator will register your name and organization. If you have any difficulty connecting with the conference call, please contact Gateway Investor Relations at 1-949-574-3860.

A replay of the call will be available after 8:00 p.m. Eastern time on the same day through August 5, 2021.

U.S. replay dial-in: 1-844-512-2921
International replay dial-in: 1-412-317-6671
Replay ID: 13721495

About Clearfield, Inc.

Clearfield, Inc. (NASDAQ: CLFD) designs, manufactures, and distributes fiber optic management, protection, and delivery products for communications networks. Our “fiber to anywhere” platform serves the unique requirements of leading incumbent local exchange carriers (traditional carriers), competitive local exchange carriers (alternative carriers), and MSO/Cable TV companies, while also catering to the broadband needs of the utility/municipality, enterprise, data center and military markets. Headquartered in Minneapolis, MN, Clearfield deploys more than a million fiber ports each year. For more information, visit www.SeeClearfield.com.

Cautionary Statement Regarding Forward-Looking Information

Forward-looking statements contained herein and in any related presentation or in the related FieldReport are made pursuant to the safe harbor provisions of the Private Litigation Reform Act of 1995. Words such as “may,” “will,” “expect,” “believe,” “anticipate,” “estimate,” “outlook,” or “continue” or comparable terminology are intended to identify forward-looking statements. Such forward looking statements include, for example, statements about the Company’s future revenue and operating performance, anticipated shipping on backlog and future lead times, future availability of components and materials from the Company’s supply chain, the impact of the Rural Digital Opportunity Fund (RDOF) or other government programs on the demand for the Company’s products or timing of customer orders, the Company’s ability to add capacity to meet expected future demand, and trends in and growth of the FTTx markets, market segments or customer purchases and other statements that are not historical facts. These statements are based upon the Company’s current expectations and judgments about future developments in the Company’s business. Certain important factors could have a material impact on the Company’s performance, including, without limitation: the COVID-19 pandemic has significantly impacted worldwide economic conditions and could have a material adverse effect on our business, financial condition and operating results; we rely on single-source suppliers, which could cause delays, increases in costs or prevent us from completing customer orders; fluctuations in product and labor costs which may not be able to be passed on to customers that could decrease margins; we depend on the availability of sufficient supply of certain materials, such as fiber optic cable and resins for plastics, and global disruptions in the supply chain for these materials could prevent us from meeting customer demand for our products; a significant percentage of our sales in the last three fiscal years have been made to a small number of customers; further consolidation among our customers may result in the loss of some customers and may reduce sales during the pendency of business combinations and related integration activities; we may be subject to risks associated with acquisitions; product defects or the failure of our products to meet specifications could cause us to lose customers and sales or to incur unexpected expenses; we are dependent on key personnel; our business is dependent on interdependent management information systems; to compete effectively, we must continually improve existing products and introduce new products that achieve market acceptance; changes in government funding programs may cause our customers and prospective customers to delay, reduce, or accelerate purchases, leading to unpredictable and irregular purchase cycles; intense competition in our industry may result in price reductions, lower gross profits and loss of market share; our success depends upon adequate protection of our patent and intellectual property rights; if the telecommunications market does not expand as we expect, our business may not grow as fast as we expect; we face risks associated with expanding our sales outside of the United States; and other factors set forth in Part I, Item IA. Risk Factors of Clearfield’s Annual Report on Form 10-K for the year ended September 30, 2020 as well as other filings with the Securities and Exchange Commission. The Company undertakes no obligation to update these statements to reflect actual events unless required by law.

COVID-19 Operational Update

- Critical manufacturer status
- Operating at normal capacity and adhering to state and federal government social distancing guidelines
- Enhanced safety measures for on-site production personnel
- Majority of supply chain remains operational
- Maintaining higher minimum stocking levels on component level inventory to ensure customer needs are met

A slide titled "Operational Update" featuring a portrait of Cheri Beranek, President & CEO, on the left. The background is a blue-tinted image of a city skyline at night with light trails from traffic. The Clearfield logo is visible in the top left and bottom right corners of the slide.

Clearfield "Now of Age" Plan

Now of Age

Accelerating our Operating Cadence

- Active investment in systems and processes to enable our agile work environment
- Speed of delivery in every part of our organization is paramount to our success

Now of Age

Amplifying Bold and Disruptive Growth

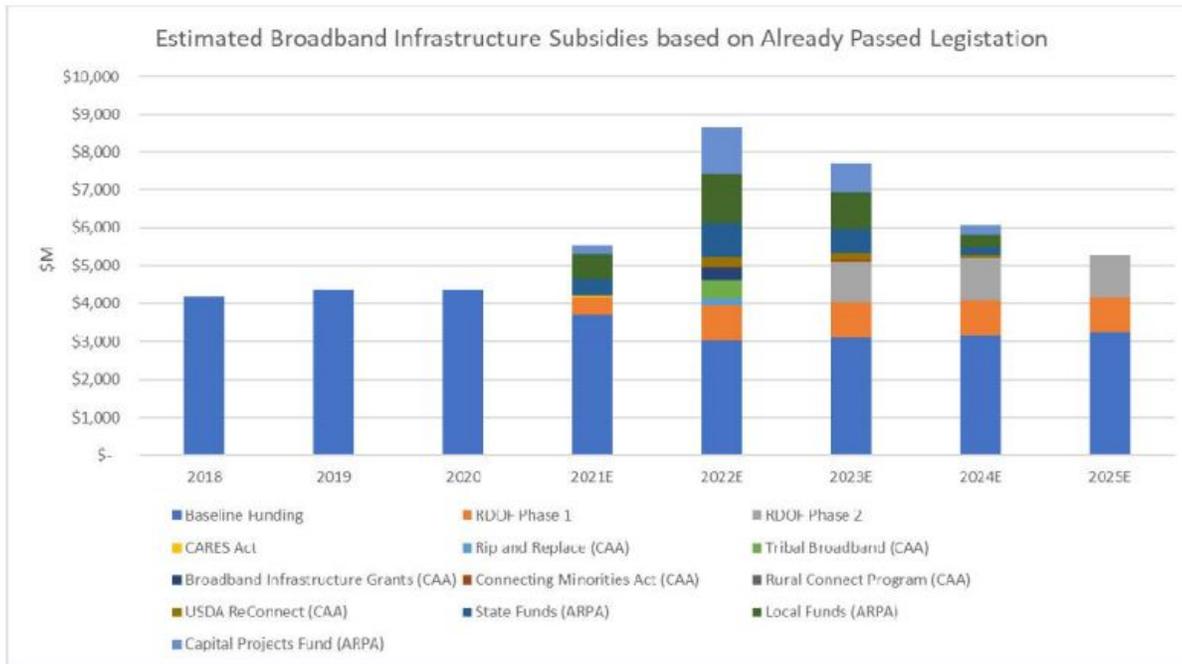

- Leveraging Community Broadband for One-Fiber Backhaul
- Removing obstacles for the integration of wireline and wireless networks
- Bringing fiber management expertise to 5G, NG-PON, and edge computing

Now of Age

Augmenting Capacity for Ongoing Growth

- Investing in products, manufacturing and supply chain to increase competitiveness and reduce costs
- Building upon Asian partnerships for faster product innovation and cost reduction programs
