### **Management Commentary**

"Our net sales outperformance in the second quarter was driven by strong customer demand across all our Clearfield segment end markets and solid execution, as we converted quoting activity into revenue at a faster pace and higher rate than anticipated," said Company President and Chief Executive Officer, Cheri Beranek. "Despite the current level of macro uncertainty, we remain confident in our ability to take market share as the industry returns to normalized demand and ordering patterns."

"Our strong bottom-line performance and continued gross margin improvements were primarily driven by lower excess inventory reserve costs and higher production volumes in the Clearfield segment," said Chief Financial Officer Dan Herzog. "We are also actively taking steps to navigate the near-term tariff environment. As we currently understand the tariff environment, we do not believe the tariffs in their present form will materially affect our operating results."

### Financial Results for the Three Months Ended March 31, 2025

Net sales for the second quarter of fiscal 2025 increased 28% to \$47.2 million from \$36.9 million in the same year-ago quarter.

As of March 31, 2025, order backlog (defined as purchase orders received but not yet fulfilled) was \$34.1 million, an increase of \$8.1 million, or 31%, compared to \$26.0 million as of December 31, 2024, and a decrease of \$13.1 million, or 28%, from March 31, 2024.

Gross margin for the second quarter of fiscal 2025 was 30.1%, compared to 7.7% in the second quarter of fiscal 2024. The increase in gross margin from the year ago quarter was due to increased volumes within the Clearfield segment, resulting in improved utilization of

manufacturing overhead, as well as a reduction of \$4.5 million in excess inventory charges incurred in the prior year quarter, due to better utilization and beneficial recoveries from previously reserved inventory in the second quarter of fiscal 2025.

Operating expenses for the second quarter of fiscal 2025 increased 11% to \$13.9 million, or 29.5% of net sales, from \$12.6 million, or 34.1% of net sales, in the same year-ago quarter.

Net income for the second quarter of fiscal 2025 totaled \$1.3 million, or \$0.09 per diluted share, compared to net loss of \$5.9 million, or (\$0.40) per diluted share, in the same year-ago quarter. In the second fiscal quarter, the Company repurchased approximately \$4.7 million in shares under its share repurchase program. There is approximately \$14 million remaining for future repurchases as of March 31, 2025.

## Outlook

The Company reiterates its annual revenue guidance for fiscal 2025 in the range of \$170 million to \$185 million. For the third quarter of fiscal 2025, Clearfield expects net sales to be in the range of \$45 million to \$50 million and net income per share to be in the range of \$0.01 to \$0.08. The net income per share range is based on the number of shares outstanding at the end of the second quarter and does not reflect potential share repurchases completed in the third quarter. Our guidance reflects the evolving tariff situation as currently known, which we do not believe will materially affect our operating results.

## **Cautionary Statement Regarding Forward-Looking Information**

Forward-looking statements contained herein and in any related presentation or in the related Earnings Presentation are made pursuant to the safe harbor provisions of the Private Litigation Reform Act of 1995. Words such as "may," "plan," "expect," "aim," "believe," "project," "target," "anticipate," "intend," "estimate," "will," "should," "could," "outlook," or "continue" or comparable terminology are intended to identify forward-looking statements. Such forward looking statements include, for example, statements about the Company's future revenue and operating performance, the impact of recent trade policy changes, including new and increased tariffs, retaliatory tariffs, trade disputes, and market and economic reactions to such changes, expected customer ordering patterns and future supply agreements with customers, anticipated shipping on backlog and future lead times, future availability of components and materials from the Company's supply chain, compliance with Build America Buy America (BABA) Act requirements, future availability of labor impacting our customers' network builds, the impact of the Broadband Equity, Access, and Deployment (BEAD) Program, Rural Digital Opportunity Fund (RDOF) or other government programs on the demand for the Company's products or timing of customer orders, the Company's ability to match capacity to meet demand, expansion into new markets and trends in and growth of the FTTx markets, market segments or customer purchases and other statements that are not historical facts. These statements are based upon the Company's current expectations and judgments about future developments in the Company's business. Certain important factors could have a material impact on the Company's performance, including, without limitation: our business is dependent on interdependent management information systems; inflationary price pressures and uncertain availability of components, raw materials, labor and logistics used by us and our suppliers could negatively impact our profitability; we rely on singlesource suppliers, which could cause delays, increase costs or prevent us from completing customer orders; we depend on the availability of sufficient supply of certain materials and global disruptions in the supply chain for these materials could prevent us from meeting customer demand for our products; a significant percentage of our sales in the last three fiscal years have been made to a small number of customers, and the loss of these major customers could adversely affect us; further consolidation among our customers may result in the loss of some customers and may reduce sales during the pendency of business combinations and related integration activities; we may be subject to risks associated with acquisitions, and the risks could adversely affect future operating results; we have exposure to movements in foreign currency exchange rates; adverse global economic conditions and geopolitical issues could have a negative effect on our business, and results of

operations and financial condition; growth may strain our business infrastructure, which could adversely affect our operations and financial condition; product defects or the failure of our products to meet specifications could cause us to lose customers and sales or to incur unexpected expenses; we are dependent on key personnel; cyber-security incidents, including ransomware, data breaches or computer viruses, could disrupt our business operations, damage our reputation, result in increased expense, and potentially lead to legal proceedings; natural disasters, extreme weather conditions or other catastrophic events could negatively affect our business, financial condition, and operating results; pandemics and other health crises could have a material adverse effect on our business, financial condition, and operating results; to compete effectively, we must continually improve existing products and introduce new products that achieve market acceptance; if the telecommunications market does not continue to expand, our business may not grow as fast as we expect, which could adversely impact our business, financial condition and operating results; changes in U.S. government funding programs may cause our customers and prospective customers to delay, reduce, or accelerate purchases, leading to unpredictable and irregular purchase cycles; intense competition in our industry may result in price reductions, lower gross profits and loss of market share; our success depends upon adequate protection of our patent and intellectual property rights; we face risks associated with expanding our sales outside of the United States; expectations relating to environmental, social and governance matters may increase our cost of doing business and expose us to reputational harm and potential liability; our operating results may fluctuate significantly from quarter to quarter, which may make budgeting for expenses difficult and may negatively affect the market price of our common stock; our stock price has been volatile historically and may continue to be volatile - the price of our common stock may fluctuate significantly; anti-takeover provisions in our organizational documents, Minnesota law and other agreements could prevent or delay a change in control of our Company; and other factors set forth in Part I, Item IA. Risk Factors of Clearfield's Annual Report on Form 10-K for the year ended September 30, 2024 as well as other filings with the Securities and Exchange Commission. The Company undertakes no obligation to update these statements to reflect actual events unless required by law.
